Keith Sylvester  
STATE OF Georgia

**MANDAMUS to Compel Action**  
In the Superior Court of Fulton County Georgia

To the best of my knowledge, Criminal Case 18cp180536 has been delayed of probable cause to support my continued incarceration in violation of both the Georgia & the U.S. constitutions. The same criminal case has not been presented to a Grand jury while I have been held under arrest for Capitol Offences in violation of the Georgia and U.S. constitutions. Lastly, the same criminal case has remained un-indicted with a excessive pre-trial Bail for over (14) months in violation of the Constitution of the United States and Georgia while Keith Sylvester has lost family ties, Community ties, employment, property and other civil liberties as a direct result to the actions brought about by the State of Georgia. There are also overwhelming delays with discovery including evidence favorable to the defendant who has requested court hearing minutes, preliminary hearing transcripts & various reports. I have also requested evidence from the Atlanta Police Department. I would like everyone mentioned in this document to do their jobs and provide all info I've requested in this document and other motions and requests. Lastly, I would like

the removal of mandamus piece 12/14/17.
